Welcome to Flying S Herefords!

We would like to invite you to join us for our first annual production sale here at the ranch in Paluxy. It has been another phenomenal year to be in the cattle business, and the demand for top quality Line One Herefords continues to grow. Flying S Herefords Ranch is located at Paluxy, Texas, southwest of Fort Worth. Our mission at Flying S Herefords is to produce elite Line One Horned Herefords. Over the past years, we have invested in the top bloodlines of the finest Line One Herefords in America from Holden Herefords and Cooper Herefords. Our focus is on every aspect of the Hereford breed. We believe in a long-lasting performance Line One breeding program to increase the predictability of our cattle for our customers. In order to succeed in Line One breeding, you must continue to introduce cattle with superior genetics. Flying S Herefords focuses heavily on the maternal abilities in our breeding program. We have a strict culling program that enables us to produce and retain only the genetically superior animals. Cows are culled based on fertility, performance, soundness and udder quality. We are active members of the Texas Hereford Association along with the American Hereford Association and are involved with the TPR program of the American Hereford Association and active in the Whole Herd Reporting Program.

It is a great pleasure to be able to offer such an outstanding set of bulls and females. This group of bulls represents the best of our fall 2013 and spring 2014 calf crops. They are all sired by top quality Line One bulls. They are a balanced trait set of bulls that combine pigment, maternal strength, thickness, performance, fleshing ability, carcass and eye appeal. All bulls and heifers sell with performance and ultrasound data and have been DNA parentage verified as well as tested IE Free, HY Free and Dilutor Free. All bulls have been trich and semen tested. This year we will have three added special features. We are offering three elite, proven donor females and two "Pick of the Flush" offerings out of our top genetics. In the first "Pick of the Flush," there are five yearling heifers out of our CL 1 Dominette 606S donor and sired by the Cooper 297Z sire. In the second "Pick of the Flush," there are two fall bred heifers out of our HH Miss Advance 9168W donor and sired by our HH Advance 0149X herd bull. In addition, we are selling nine fall top-notch bred heifers, 10 outstanding open yearling heifers, five fall bred pairs with heifer calves at side and three top quality fall bred cows.

All sale cattle and the cow herd can be viewed any time up to sale time. Snacks and lunch will be provided on sale day. Lunch will be served at 11:00 am, and the sale starts promptly at 12:00 noon. Thank you for taking the time and having an interest in our program, and we look forward to seeing you on March 19th. If you have any questions or we can be of any help, please feel free to call us anytime.

1098Y was the high selling bull in Holden's 2012 sale at \$102,000 for 3/4 interest and 1/2 possession. He is a curve bender deluxe, combining outstanding calving ease with exceptional growth and maternal strength. He is a long bodied, smooth made bull with loads of pigment. He is backed by one of Holden's strongest cow families, and his dam is one of their very best young donor females. She is a super functional cow with a perfect udder and loads of milk. Maternal granddam is the great 1028L donor cow, one of the top cows Holdens have ever produced.

Owned with Holden Herefords, MT, and Harrison Land and Cattle, OK.

TOP HERD BULL PROSPECT

415B is one we could go on and on about. He is a top-notch, goggle-eyed herd bull prospect and the only son in the sale of our 1059Y herd bull. He combines so many of the traits that the Hereford breed needs today. He has outstanding EPDs, individual performance and ultrasound data. His dam is a top donor cow for us and an AHA Dam of Distinction.

415B is a deep sided, extra long, thick butted, big topped, easy moving bull. His pedigree is stacked with outstanding females. His fall ET sister in our replacement pen just might be the best female we have raised to date.

Note:

- ✓ **First breeding season guarantee on all bulls**
- ✓ **All bulls have passed a breeding soundness examination and have tested negative for trichomoniasis**

EYE PIGMENTATION LEFT **100%** RIGHT **100%**
9168W's fall 2014 heifer calf is being retained.

9168W is a fancy fronted, deep sided donor with lots of thickness, pigment and eye appeal. She is a great embryo producer, averaging over 10 embryos per flush. She has the EPDs and pedigree to back her up. 9168W has produced some of our top females, and we used one of her sons last year on some of our heifers. She is a foundation female to build a herd around.

The dam of 9168W has produced herd bulls for several top registered herds across the U.S., including HH Advance 1087Y ET, an 8050U son that sold to Cooper Herefords for \$27,500 in 2012. Holden Herefords also retained an interest in 1038Y ET, a full brother to 1087Y that sold to Baker Hereford Ranch for \$18,000 in Holden's 2012 bull sale.

A son of 9168W sells as Lot 3012A. Daughters sell as "pick of the flush" Lots 3005A and 3007A.

Sells open and ready to flush.

Flying S Herefords reserves the right to one future flush at the buyer's convenience and seller's expense.

View the videos online prior to sale day:

OPEN YEARLING HEIFERS

Pick of the Flush

CL 1 Dominette 606S 1ET

Dam of the five "Pick of the Flush" yearling ET heifers

Here's your chance to select one of five outstanding heifers out of the CL 1 Dominette 606S and CL 1 Domino 297Z flush. These heifers are backed by tons of cow power and performance.

606S is a top-notch donor cow out of a very maternal cow family with depth of rib, volume, pigment and an excellent udder. A daughter sold for \$29,000 to Edgar Herefords in Cooper's 2011 Production Sale. She is a daughter of the great HH Advance 3113N bull and the CL 1 Dominette 0112K cow that topped Cooper's 2005 Cow Sale at \$36,000. Her full brother is the CL 1 Domino 7128T bull that sold to Holden Herefords and went on to sire the HH Advance 0132X sire.

CL 1 Domino 297Z is a powerhouse sire that sold to Holden Herefords and Baumgarten Cattle Co. in Cooper's 2013 Production Sale. 297Z's dam is a full sister to the dam of the \$160,000 CL 1 Domino 105Y bull. These heifers are all deep ribbed, long bodied and pigmented and are very smooth made.
